

RAHUL KUMAR SINGH

Student

PROFILE

I am a postgraduate student specializing in statistics (currently in Semester 3) and I'm seeking a job opportunity in data analysis or to freelance as a data analyst. I have a strong grip in statistics and mathematics. And I'm also skilled in using statistical tools like ANOVA, hypothesis testing, regression testing, etc. I want an internship to deepen my understanding of how data analysis is applied in real life scenarios and to contribute my skills

▶ EDUCATION

Graduation

ST. XAVIER'S COLLEGE, AHMEDABAD
2021-2024
BSC. in Statistics

Post Graduation

AMITY UNIVERSITY, NOIDA
2024 - 2026
Masters in Statistics

▶ SKILLS

Statistical tools
Statistical inference
Probability
Operation research
ANOVA
Regression testing
Hypothesis testing
Time series Analysis
Probability distributions
Statistical modeling
Design of experiments

▶ LANGUAGES

Hindi
English

▶ COMPUTER SKILLS

Excel
Data analysis in excel
R-programing
Data visualisation
Python
PowerBi

▶ INTERNSHIP

I did a two-month summer internship (May–July) at the **Ministry of Statistics and Programme Implementation (MOSPI)** in Ahmedabad. I worked under the guidance of statistical officers in the Directorate of Economics, within the Evaluation Department. Our primary task was to evaluate various state government schemes in Gujarat. This involved conducting surveys to collect data from both beneficiaries and non-beneficiaries of the schemes. Using the collected data, we analyzed the effectiveness and impact of the schemes and suggest possible improvements.

▶ PROJECTS

1. Data analysis using an Automated Dashboard for Real-Time Sales Insights
2. Predictive Model for Optimal Player Selection in Fantasy Cricket
3. Evaluation of "Training and Motivational Tours for Livestock Keepers" Scheme
